

“Today I learned I really can change the world.”

NatureBridge has been transforming Bay Area students into lifelong environmental stewards since 1971.

Change the world one child at a time.

Won't you help us make environmental science and stewardship an integral part of education for every child in America? Your support ensures that our residential programs, conducted in partnership with the National Park Service, will change the lives of more students from all walks of life, for many years to come.
